BIBLE OUT DATE SAYS GRANDMA

The Bible is scientifically out of date and limited in its value for religioùs education; according to an 82your-old grandmother, recently ordained into the Unitedian Ministry.

The Rev. Dr Sophia Lyon Fahs of New York City spoke at religious education conference during the annual Unitarian meetings here.

She said, "The Bible records are permeated with the assumptions of ancient men regarding the natural world . . . all these understandings of the nature of the universe and in turn they affected their beliefs about God and man. These ideas are not parts of the science of our day but they were parts of the science of two thousand and more years ago."

WHEN I came to settle in Ireland, people told me authoritatively that despite talk of change and modernity, the set-up would surprise me by its off-beat oddity. With equal authority, people said that was nostalgic tosh, and an insult to modern Ireland into the bargain.

With these statements in mind, I felt equipped to deal with any situation arising Needing a base while I looked things over, I went to stay with my friend George Barry who, despite civil commotion, intrusions of wars and rigours of peace still kept his grip on a castle of moderate size.

"He also," said the Monroes, mutual friends who saw me off on the trip from Dublin to the west, "has a butler."

"Nice for him," I said, "Edwardian luxury.'

"It would be nicer for his triends," said Mary Monroe darkly, "if he didn't have any such thing. In fact, it's your public duty to persuade George to fire the man. Don't ask why, you'll see for yourself,"

Personally, I considered that George, whose wife had died some years ago, was lucky to have any kind of butler to take cure of things,

Signing off

I sat with him after dinner, drinking a poteen which George justifiably, treated with the reverence due to an old brandy. The butler, apparently, was out for the evening, but dinner was good and the service neatly accomplished by a girl from the

At 930, or thereubouts, I was complimenting George on that superb poteen, and hoping the ponce would not catch up too soon with whatever secret bonefactor was distilling the stuff somewhere in the hills, when the lights went off. "Fuse gone?" I said.

"No, no," said George who, I now observed, had a couple of candles standing ready on a side table, which he was now lighting. "It's only Al," he added.

"Aloysius, my butler. When he's had a drop too much stout down in the village and comes home tired, he pulls the masterswitch in his pantry to notify me, so to speak, that he's signing off for the night. You don't mind candielight, do you? It's such a nuisance trying to get the pantry key off him once he's gone to bed."

wI said that of course I didn't mind talking and ultimately entitled to relaxation and fine oddities of behaviour. He was refreshment.

Dr Beddoes then decided that he was really a poet and made up his mind to write an epic about Alexander's expedition to India. But obviously an epic poem could only be written by someone sitting on the 8,000-foot summit of Mount Parnassus. So, he went there intending to write one, perching day and night on his cold pinnacle.

Failing to find a publisher for his epic, Dr Beddoes decided to try his hand at politics. To Prime Ministen Pitt he expounded a theory to save Engined from famine. You simply fed cows on table vegetables so that people who are beef would also, at one remove, be eating greens as well

LEAGUE-LEADING INDIANS LIKELY TO LOSE TO CCC AT HAPPY VALLEY TODAY

Undefeated fathis again take the spotlight as the lawn bowls league season enters its fifth week this afternoon.

In the other first division games, Kowloon Bowling Green Club may have to fight extremely hard for a possible four points against Recreto "B" at their home green. The Bowling Club bowlers made a promising start to the season when they took full points from Talkoo. The departure of L. Cosgrove from the Colony and the surprise 3-2 defeat they suffered from KCC in the second mutch, seemed to have had an upsetting effect on the team as a whole, causing them to lose their last two matches by overwhelming 5-0 margins,

Main Doubt

In their match last week. I feel that the first two front men in M. E. Purvis' four, A. D. Duffy and S. Bichena, and in T. Kavanagh's four, G. Jeffics and P. EIGHTH SOFTBALL SUMMER LEAGUE STARTS MONDAY London To Brighton Walk Cheyennes 'A' Top Favourites For Title

By OLLY VAS

I never cease to be amazed at the enthusiasm which the game of softball generates among its adherents. It seems to me that in spite of nearly seven months of intense weekend competition during the regular winter leagues each year, players cannot have enough of it, for now comes the news that twelve men's teams will be competing for the A. S. Watson trophy, summer heat and showers notwithstanding.

The eighth Softball Summer League since 1951 gets under way on Monday when the Cheyennes "A" come up against their Junior team at King's

League is one with a difference. The Hongkong Softball Asso-ciation are lending the participants the field, softballs and moral support only. They have turned over the league's management to the various managers who will make all arrangements regarding umpires, scores, and

A schedule of games has already been drawn up and matches will be played off in the evenings, commencing at 5.45 p.m. on Mondays, Wed-nesdays, Thursdays and Fridays.

Poorly Organised

Lust year's Summer League was poorly organised and found because of lack of discipline. It only remains to be seen whether this year's affair will show some

The Great Decline Reached New Depths -Down Mexico Way

The dismal failure of the England football team in South America has provided the sporting world with its meatiest morsel in many years. England's 'tour of torture' --- as it has been called in one prominent British newspaper has given sportswriters in every corner of the globe an opportunity to blow off some steam . . . and it is probably significant that the loudest, and certainly the most vitriolic examples of this pastime have been found in Britain.

It is doubtful if ever in the history of the game a touring party has been lambasted as this England team has been and what is apparently much more important . . . the selectors . . . and management on the spot, and the players seem

That is a valid point. British football as a whole is old fashioned although much of its stolianess — and solidness — is born in the very nature of the high-powered domestic competitions in which the league clubs have to play every week for eight months of the year.

The big kick has disappeared completelyand the fact that it still exists in Britain can be attributed to the "get-rid-of-it" boys who peek the grounds demanding success at any cost. Footballers who have to folerate such exhortations week

after week cannot possibly develop the intricate style of football which has carried the Hungarians and the Brazilians to the top of the football world.

Adenauer's Critics STORM Are Helpless

Bonn, June 5. Dr Konrad Adenauer won a bloodless victory over his critics today and gained the approval of the parliamentary group of the Christian Democratic Party for his decision to stay at the head of the Government.

Political observers believe most Christian Democratic Deputies decided to make the best of a situation they could not alter.

However they may feel about Dr Adenauer now, they have no means of removing him from office except by a parliamentary vote of no confidence, which would be death to the party's unity and standing in the country.

Nottingham, June 5. Bad light followed by severe rainstorms ended play here an hour before the scheduled close with India 116 for three wickets in reply to England's total of 422 on the second day of the five-day Test match today.

The rain could easily act in England's favour as before the oltch was entirely covered a certain amount of rain fell on it and it could become lively in the morning. After the last four English wickets had added 64 the In-

dians began their innings in ultra cautious fashion. Not until 100 minutes had passed with only 34 on the board did India lose a wicket. Then Contractor was caught at deep square leg when hooking Tom Greenhough,
